## **Unipart Wins Logistics Consultant Role to Crossrail**

Unipart has won the logistics consultancy role in the successful bid by the Transcend consortium for programme management of the £15.9bn Crossrail project.

Crossrail is a new railway initiative for London that will deliver a world-class train service across the capital. Work will begin on the project immediately and will continue until 2017.

Commenting on the appointment, John Neill, Group Chief Executive of Unipart said:

“We are delighted that Transcend has been selected as programme partner to the Crossrail project and we are proud to have played a part in this success. We look forward to applying the combined experience and skills of our teams across the Group to play a meaningful part in the strategic management of the programme.”
