Unipart Rail ‘Signs’ Distribution Agreement with RBLI

Unipart Rail is delighted to announce that it has signed an agreement with Royal British Legion Industries to double the range of trackside signage carried in the Unipart Rail catalogue.

The distribution agreement was signed on 3rd November during a visit to the RBLI’s Aylesford base by Mike Penning MP, Parliamentary Under-Secretary of State for Transport, alongside the local MP for Chatham & Aylesford, Tracey Crouch.

An increase in the range of signs catalogued with Unipart Rail has been planned, in response to market demand for a wider variety than was previously traded. Steve Osborne from RBLI, commented “The new arrangement strengthens our relationship with Unipart Rail and will enable us to increase the supply of high-quality signage into the rail industry, whilst continuing our work with forces veterans.”
