

Point Machine Coupler

Reduced installation and testing times for new or serviced point machines

Network Rail – Certificate Number PA05/297

This product ensures:

- **Reliability:**
Secure and waterproof junction.
- **Safety:**
Impossible to terminate incorrectly.
- **Quick installation/replacement**
Reduced possession requirement.
- **Simple point machine termination:**
Polarised termination with locating marker.
- **100% correct termination:**
All assemblies 100% factory tested.

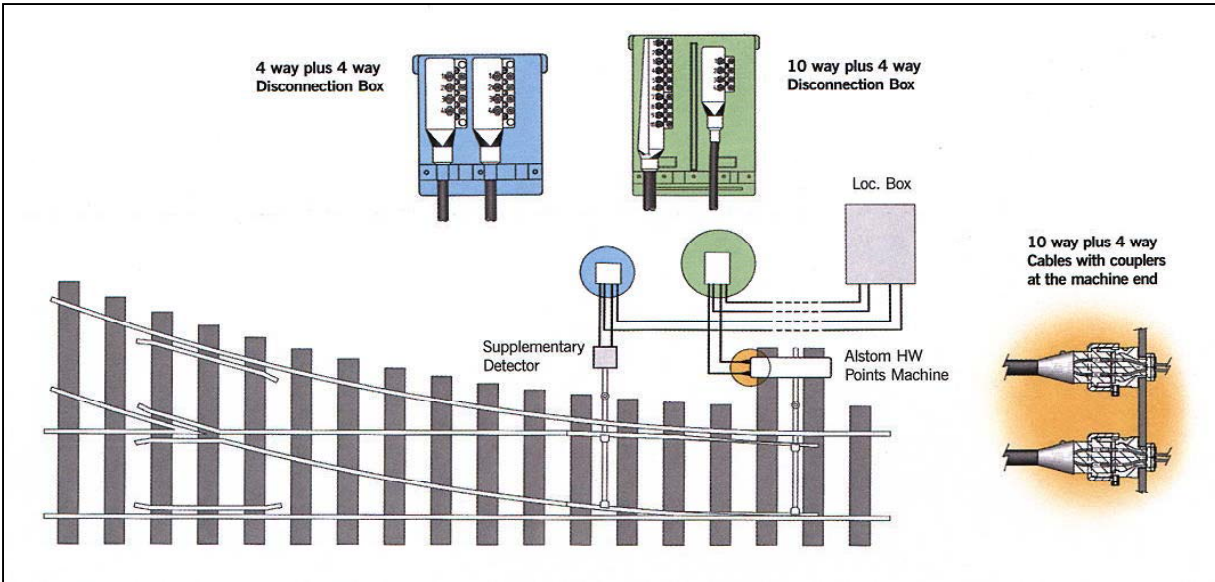

To meet the continual drive for improvements to track-side electrical connections, Unipart Rail and Prysmium supply a modular connect/disconnect system for point machines which has full Network Rail approval.
