

# Temporary Speed Restrictors (TSRs)

A range of TSRs is now available from Unipart Rail. The TSR is part of the on-track automatic warning system, where a temporary speed restriction is in operation to enable engineering works to be carried out to the track or signalling equipment.

The standard strength TSR is manufactured by Unipart Rail and conforms to Network Rail Group Standards GC/RT5060 and GT/RT0038

As alternatives to the standard TSR, lightweight versions are now available with the following features

- Just 20 kg weight
- Secure and lockable
- Alternative to both yellow and green spec temporary AWS magnets
- One man operation
- No tools required
- No possession required
- Installs in minutes
- Suitable for all types of rails – including 3rd rail areas

**Cat N° 062/006773**  
AWS Magnet

**Cat N° 062/006790**  
Vortok AWS Magnet –  
standard strength (Yellow)

**Cat N° 062/006791**  
Vortok AWS Magnet – extra  
strength  
(Green - 3<sup>rd</sup> rail areas)

**Cat N° 062/006792**  
Bull head adaptor for  
062/006790 or 062/006791
