

AWS/TPWS Voltage Converter

New high reliability

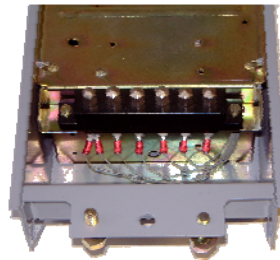

Designed to replace existing AWS voltage converters to ensure compatibility with combined AWS/TPWS systems

Network Rail Certificate N° LD 53027001/PA001

New build versions with hard-wiring are available to meet specific vehicle needs

Retro-fit version with contact plungers

- State-of-the-art-technology delivers significant improvements in performance and reliability
- Fully compatible with existing AWS/TPWS installations
- Regulated output voltage ensures constant 12v and 40v supply
- Uses existing mounting baseplate enabling simple retro-fit
- New build versions designed to meet specific vehicle requirements

Previous Catalogue N°	Input Voltage	Retro-fit AWS/TPWS Converter Catalogue N°
0062/014620	24v	0062/014620
0062/014623		
0062/014627	70v - 90v	0062/014632
0062/014632		
0062/014624	110v	0062/014626
0062/014626		

Because the new AWS/TPWS converter is technically more advanced, it is a direct replacement for several older versions.
