

Electronic Automatic Phase Control APC Receiver

NEW

from
Unipart Rail

- Improved reliability of electronic circuitry with no relays or moving parts
- Modern MIL-C-5015 connector to increase reliability
- Integral cable to reduce connections and increase reliability
- The APC Receiver can be supplied either with a PMA flexible conduit or an Adaptaflex - Super Low Fire Hazard flexible conduit with Stainless steel Overbraid.
- The APC receiver is available either with a 40V reset or 110V reset to be specified by the customer
- Assortment of cable lengths available
- Lightweight design to maximise strength and reduce unsprung bogie weight
- Option to upgrade receiver junction box connector to MIL-C-5015 specification or can be hard wired direct into junction box

**Now approved
for use on all
25kV
Locomotives and
EMUs.**

**Certificate Number
PA05/2950**

The new electronic APC receiver replaces the conventional mechanical and reed relay based APC receivers.
