

Innovative Seating Solutions

Unipart Rail and Beamlight have introduced New and Refurbished solutions for both Passenger and Driver Seating Applications.

Beamlight manufactures an extremely lightweight unique spring system noted for its comfort, and its ability to package into restricted area.

The spring system can be incorporated into both mattress and seating systems making for a cost effective lightweight and 'green' product.

The vision of a 'green, low carbon footprint' product has been the driver for us to create such products to meet today's demands for an environmentally friendly rail industry.

We have searched the world for lightweight, low 'carbon footprint' materials to be able to offer a 'green' product to the industry. Our product range address's this ambitious challenge.

Features and Benefits

The Vision of a 'green, low carbon footprint' Seat, can meet the continuous demand for an environmentally friendly Rail Industry.

Ecofibrelite

- 50% Weight reduction
- Fully recyclable
- Non toxic
- Non flammable – fire and smoke approval BS6853:1999
- Air permeability

Single Wire Spring System

- Weight reduction
- Cost effective
- No wire to wire function
- Increased level of comfort

Microfibre Upholstery

- Inbuilt stain release finish
- Fire retardant

Corrugated Aluminium Sandwich Frame

- Weight reduction
