

Nylon Rod Barrier Skirt for Level Crossing Barriers

The Unipart Rail nylon rod barrier skirt is a low-cost option which resists damage and reduces maintenance and failure costs

- **Strong flexible struts to resist impact damage**
- **Struts will not chip or rust**
- **Unipart Rail will custom build and supply the correct skirt for your existing boom**
- **Can be supplied complete with boom, if required**
- **Low cost long life replacement skirt**
- **Maintains red or white colour without fading**
- **Severe damage to struts can be fixed on a strut by strut basis**
- **Can be adapted to fit other boom types.**
