

Fuel Efficiency Management Overview

by Unipart Rail

Making the most of modern fuels

Unipart Rail are able to provide a comprehensive range of Fuel Efficiency Management solutions that can be provided at all stages of fuel handling.

Fuel Supply

Fuel Storage at Depot

Train Refuelling Point

Fuel System Maintenance

Services include:

- Pre-dosed fuel
- Fuel testing
- Tank cleaning & conditioning
- Additive dosing equipment
- Additive and equipment supply
- Monitoring, servicing and maintenance

The Unipart Rail Fuel Efficiency Management solution can provide the following benefits to train and freight operators:

- **Complete “Tanker to Train” fuel management service to improve fuel quality**
- **Significant and immediate cost savings that self-fund any additional dosing equipment requirements plus additional ongoing payback**
- **Improved Engine Economy and Performance**
- **Improved Engine Reliability**
- **Reduction of Carbon Emissions and Environmental footprint**

DiesoLiFT fuel additive is part of an ongoing good fuel management regime that is required for effective fuel system performance.
