

Unipart Rail – for exciting career development opportunities

We have a great track record of employing and developing apprentices and graduates in all parts of our business. We are able to provide varied and interesting career development for all our recruits in a wide range of disciplines such as Engineering, Logistics, Supply Chain Procurement, Commercial, Finance and general Business Management.

Our apprentices and graduates join established Training and Mentoring programmes that provide a broad insight to all aspects of our business. Working on a variety of projects together with our expert and experienced staff, graduates are able to develop their own skills and knowledge whilst contributing to providing solutions that continuously improve the Company.

With locations in Doncaster, Crewe and York in the UK and international operations in other parts of the world, Unipart Rail offer all employees the opportunity to travel to carry out research, procurement and commercial activities.

Unipart Rail – serving the world’s railways

Unipart Rail brings a unique range of solutions to the rail industry – solutions which are designed to give the maximum benefit to our partners.

From a complete supply chain management service to ‘stand alone’ product supply packages, Unipart Rail is able to tailor engineered solutions and consultancy services to meet the needs of a wide range of customers and environments.

Our customers have significant challenges in balancing safety, operational efficiency and cost to deliver world-class services to the train and freight operators. We help them achieve this by working collaboratively to drive efficiencies within their businesses.

Whether operating in infrastructure design, build or maintenance, or in traction and rolling stock build and maintenance, our services deliver cost, time and environmental savings.

- Unique employee engagement philosophy
- Opportunities in Engineering, Logistics, Supply Chain Procurement, Commercial, Finance and general Business Management
- High level of CSR commitment with extensive community activities
- UK and international travel potential

Unipart Group voted best in class by graduates

Unipart Rail are part of the Unipart Group of Companies, which was voted the Best in Class for graduates to work for in the transport, logistics and distribution sector by graduates providing reviews on TheJobCrowd site in early 2014.

TheJobCrowd is a graduate recruitment site often described as the 'TripAdvisor' for jobs. It hosts thousands of reviews, all written by graduate employees.

Graduates wrote that Unipart Group has a "culture, respect, openness and can-do approach to everything" and that their employer "takes huge pride in their graduates" and that "getting such a large amount of responsibility, and being put outside of my comfort zone at such an early stage has been brilliant for my development".

The combination of early and significant responsibility and top-class training and support also translated into excellent ratings for Career Progression.

"Unipart have consistently been well rated by their graduates across the last 4 years of publishing the top companies rankings so it is great to see them coming out top this year. All of the companies in the rankings are actually the best places for graduates to work – not just those companies who have the most recognised employer brands.

Students sometimes only look at particularly well-known brands or particular industries when applying for jobs, but it's the companies like Unipart who are best rated by their graduates, where they will have the best experiences".

Keren Mitchell. Managing Director of TheJobCrowd

Part of a £800m group with thousands of employees

The Unipart Group employs thousands of personnel worldwide and has an annual turnover of more than £800m. It is a leading UK manufacturer, full service logistics provider and consultant in operational excellence.

Operating across a range of market sectors, including automotive, leisure, manufacturing, mobile telecoms, rail, retail and technology, Unipart offers a breadth of services from third party logistics to expert consultancy.

All Unipart sites operate according to the Group's proprietary version of Lean known as The Unipart Way. This is a philosophy of working underpinned by tools and techniques that inspires efficiency, flexibility and outstanding customer service in any process.

The company, which is based in Oxford in the UK, has a growing number of international sites supporting a wide range of blue chip clients such as Vodafone, Sky, Sainsburys, Homebase and Volvo.

CSR award winners

Unipart Group is proud to have been recognised with a five star rating in the 2016 Business in the Community Corporate Responsibility Index - the UK's leading benchmark for responsible businesses.

We also received a record breaking number of accolades in the 2016 British Safety Council Sword and Globe of Honour awards.

The company achieved 10 Swords of Honour awards, which is the pinnacle of achievement in the world of health and safety management.

This continued recognition for our company's effort and performance in the area of Corporate Responsibility reaffirms our belief that the principles on which we founded our business - the Unipart Value Set – have endured in a constantly changing world and are as relevant today as they were when they were launched in 1987.

In removing waste from every aspect of our business and our supply chains, we continue to conserve scarce environmental resources. We used creativity before capital to solve problems and address issues, finding solutions that are low cost in terms of energy resources as well as in terms of cash.

By engaging with our local communities we can help to improve the employability and life prospects of those living within the community and develop local economies as well as positively impacting the well-being of our employees and their families.
