

# WD-40 Specialist

A range of specialist lubricants, cleansers and workshop solvents

# A tool for every job

**Introducing WD-40 Specialist™ line, an exciting range of products wearing the WD-40® shield you've come to rely on. These products are NSF registered and have been specifically designed for those more demanding jobs.**

- A range of technical maintenance products that includes lubricants, penetrants, degreasers and cleaners
- Advanced formulas designed specifically for the needs of Trade and Industry Professionals.

- All formulas have been extensively tested, and proven effective by independent laboratories.
- Multiple independent ASTM tests show that WD-40 Specialist™ outperforms the leading industrial competitors in key performance areas.
- WD-40 Specialist™ formulas contain synthetic additives for maximum performance.

## Multi-Use Product

**CLEANS:** WD-40 gets under dirt, marks and grease

**PROTECTS:** Protects metal surfaces with corrosion-resistant ingredients

**LUBRICATES:** WD-40's lubricating ingredients are widely dispersed, and hold firmly to all moving parts

**PENETRATES:** Loosens rust-to-metal bonds and frees stuck, frozen or rusted metal parts

**DISPLACES MOISTURE:** Quickly dries out electrical systems to eliminate moisture-induced short circuits

### 400ml spray can

Cat No: 0050/559700

### 400ml spray can with Smart Straw

Cat No: 0050/559701

### 600ml spray can

Cat No: 0050/559702

### 5l Flaggon with Spray Applicator

Cat No: 0050/559703

### 25l Flaggon

Cat No: 0050/559704

### 200l Barrel

Cat No: 0050/559705

### High Performance Silicone Lubricant

- Withstands temperatures of -350OC to +200OC
- Prevents parts from sticking
- Waterproofs and protects against moisture
- For use on Metal, Wood, Plastics and Rubber

Cat Number: 0050/559706

### Fast Release Penetrant

- Withstands temperatures of -200C to +900C
- Quickly penetrates rusted and corroded parts
- Loosens seized fixings
- Use on Metal, Alloys, Rubber, Plastic & Most Paints

Cat Number: 0050/559707

### High Performance White Lithium Grease

- Withstands temperatures of -180C to +1450C
- Water and heat resistant lubricant
- Long lasting protection against rust & corrosion
- For use on Metal to Metal connections

Cat Number: 0050/559708

### Fast Acting Degreaser

- Withstands temperatures of -180C to +1450C
- Water and heat resistant lubricant
- Long lasting protection against rust & corrosion
- For use on Metal to Metal connections

Cat Number: 0050/559709

### PTFE Lubricant

- Withstands temperatures of -200C to +1000C
- Long lasting lubrication
- Extends life of tools and equipment
- For use on Metal, Glass, Vinyl, Rubber and Plastic

Cat Number: 0050/559710

### Fast Drying Contact Cleaner

- Withstands temperatures of -200C to +1000C
- Long lasting lubrication
- Extends life of tools and equipment
- For use on Metal, Glass, Vinyl, Rubber and Plastic

Cat Number: 0050/559711

### Anti Friction Dry PTFE Lubricant

- Withstands temperatures of -200C to +2500C
- Enhanced lubrication and protection
- Dry clear film that resists dirt, dust and oil
- For use on Metal, Plastic and Glass

Cat Number: 0050/559712

### Multi Purpose Cutting Oil

- Prevents pitting & metal seizures
- Reduces frictional heat
- Prevents wear on machinery & equipment
- Improves machine finished metal items

Cat Number: 0050/559713

### Long Lasting Spray Grease

- Operates from -20°C to +115°C
- Excellent Adhesion & Sealing Properties
- Waterproofs and protects against moisture
- Non Drip is ideal for vertical application
- Operates under high pressure loads

Cat Number: 0050/559714

## About Unipart

The Unipart Group is a leading UK manufacturer, full service logistics provider and consultant in operational excellence. Operating across a range of market sectors, including automotive, manufacturing, mobile telecoms, rail, retail and technology, Unipart offers a breadth of services to a wide range of blue chip clients internationally.
