

JBBH Rail Key

In response to problems experienced with rail key retention and breakages with rails, Unipart Rail has developed a rail key with John Bradley which dramatically reduces failures and its associated costs in manpower and replacement materials.

Cat No 0057/048452

Network Rail
Certificate PA05/553

In the same manner as the traditional steel rail key, the JBBH rail key must be inserted in the direction of traffic.
