

# Products

All the products you need, all in one place

Products are the core of our business. We know Rail materials and components in detail. When you order a product from us you know that it comes with the required approval and accreditation for use on the railway and that approval gives peace of mind and confidence in the fit, form and function.

**We supply over 70,000 rail products and installation materials. All procured, managed and supplied to the appropriate standard. The portfolio covers infrastructure and traction & rolling stock requirements.**

Included in our portfolio are the innovative products we've designed, developed and manufacture ourselves, as well as the products we've sourced from other innovators. From the oldest to the latest technology – all in one place.

## Traction and Rolling Stock

**An extensive range of assemblies and components that are sourced, stocked, managed and delivered just when they are required, to the point of use. Repairables and consumables available from the same location with lead times that match customer's requirements.**

The main categories of products include:

- Bogie sub-components
- Brake modules & components
- Train connection systems
- Traction systems
- Door systems
- Interior fittings
- Glazing & wipers
- TPWS and train protection
- Engines and components
- Heating, ventilation and cooling systems (HVAC)
- Fuel tanks
- Radiators

## Infrastructure

**Products for infrastructure applications range from Signalling to Overhead line assemblies and from Track safety equipment to Telecommunications. The Unipart Rail Infrastructure Catalogue is treated as 'the' products sourcing tool for the UK rail infrastructure requirements and can be accessed on-line to build baskets of materials to help plan and implement rail projects.**

And if you can't find the product you need, contact us and we'll do everything we can to satisfy your requirements from the following range:

- Signalling
- Overhead line
- Cables & accessories
- Permanent way
- Power supply
- Third rail electric traction
- Concrete, GRP & GRC
- Personal protection & track safety
- Points heating
- Power supply
- Telecommunications & radio

## About Unipart

The Unipart Group is a leading UK manufacturer, full service logistics provider and consultant in operational excellence. Operating across a range of market sectors, including automotive, manufacturing, mobile telecoms, rail, retail and technology, Unipart offers a breadth of services to a wide range of blue chip clients internationally.
