SERVING THE WORLD'S RAILWAYS

The latest intelligence in key management

Ensuring that the right keys are available to the right people at the right times is a concern for every organisation.

Traka2I is a sophisticated stand-alone key management system which combines innovative RFID technology and robust design to provide advanced management of up to 2I keys or keysets in an affordable plug and play unit.

Once attached to an iFob with a robust security seal, individual keys or keysets are assigned a specific receptor within the Traka cabinet and locked in place until released by an authorised user.

Product Features

- PIN access to designated keys or keysets which are individually locked in place
- 2I robust, long-life iFobs with security seals
- 2I locking receptors with LEDs
- User, key and access rights administration
- Screen based audit trail and reporting capability or export via USB port
- Simple to configure through setup wizard
- Manual override and door release functions in case of emergency
- Multilingual functionality

Operation

- Stand-alone Plug & Play solution with advanced RFID technology
- Touchscreen interface
- Keys are securely attached using special security seals
- Simple to configure through setup wizard
- No requirement for network connection or PC
- Concealed robust fixing points allow secure wall fixing
- Mains operated with optional battery backup

Traka2I is available to buy online at unipartrailexpress.com - Cat No. 0050/564425
